#### DETAILED ACTION

### **Priority**

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Sweden on 6/23/1997. It is noted, however, that applicant has not filed a certified copy of the Swedish application as required by 35 U.S.C. 119(b).

## Claim Rejections - 35 USC § 103

- 2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 3. Claims 6-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over HENDERSON ET AL.. HENDERSON ET AL substantially discloses the claimed invention except for using twine instead of wire. However, it would have been obvious to one having ordinary skill in the art at the time the invention was made to use wire in the invention of HENDERSON ET AL in order to provide a more durable wrapping, since the examiner takes Official Notice of the equivalence of twine and wire for their use in the wrapping art and the selection of any of these known equivalents would be within the level of ordinary skill in the art.

4. The following prior art made of record and not relied upon is considered pertinent to Applicant's disclosure:

- TODD ET AL discloses a wrapping machine using measured amounts of wire.
